

## **Human Rights Day Photo Exhibition in Tokyo and Osaka on the Roma**

IMADR-JC has created a photo panel display to show the ongoing various forms of exclusion, discrimination and persecution against Roma in Europe. The display consists of 20 pictures taken in Belgium, Czech Republic, Slovakia, Hungary, Kosovo, Bulgaria and France. With the rising strength of the extreme right in these countries, Roma people increasingly face violence and persecution based on racial discrimination in their everyday life. UN committees and experts have expressed grave concerns regarding these phenomena and urged the relevant countries to take immediate action. The photos have been provided by several journalists in Europe and the Central Council of German Sinti and Roma.
